✉️ m@amansour.me - 📞 (+212) 708 99 28 70 - 📍 Tangier, Morocco

TECHNICAL SKILLS

- **Programming:** Python, C/C++, Ladder, Assembly, LaTeX, Kotlin
- **Software/Tools:** MATLAB, Catia, Simulink, Multisim, AutoCAD, VS, PSIM, LTspice, Android Studio
- **OS:** Linux, Android, Windows
- **Collaboration:** Git, GitHub
- **Hardware:** Microcontrollers, PIC, Arduino, Raspberry Pi, STM32
- **Databases:** MySQL, phpMyAdmin
- **Web Development:** HTML, PHP, JS, CSS, WordPress, XML

LANGUAGES

- **Arabic:** Native
- **English:** Fluent
- **French:** Advanced (DELF B2)
- **Spanish:** Intermediate
- **German:** Beginner

CERTIFICATIONS

- **EY:** Green Skills Passport
- **Huawei:** Next-Gen Cyber Security
- **Microsoft:** Implement RAG
- **LinkedIn:** PLC Program Flow

VOLUNTEERING

- **Amansour Blog:** Education
- **Yallah Nette3awnou:** Food relief

SOFT SKILLS

Problem-Solving, Collaboration, Communication, Time Mgmt, Adaptability, Critical Thinking

HOBBIES

Learning languages, Chess, Running, Weight-lifting, Writing, Reading

PROFESSIONAL SUMMARY

Embedded Systems Engineer and M.Sc. Student with professional experience in automotive systems and real-time automation. Currently driving innovation at ALTEN and GryLab using C/C++, Python, and embedded technologies. Proven track record in designing hardware/software solutions, seeking to leverage advanced engineering skills in challenging new projects.

EDUCATION

M.Sc. in Electrical Engineering & Embedded Systems 2025-2027

Faculty of Science and Technology - USMBA, Fez

Key courses: C/C++, Real Time sys, Linux, Java, ARM, μ CU

B.Sc. in Electrical Engineering & Industrial Systems 2022-2025

Faculty of Science and Technology - UAE, Tangier

Key courses: Electronics, Solid Mechanics, Embedded Sys, Telecom, CAD

High School Diploma in Electrical Sciences & Technologies 2019-2022

Technical High School Moulay Youssef, Tangier

Key courses: PLCs, PCB Design, Tech Drawing, Transformers, Algorithms

PROFESSIONAL EXPERIENCE

Embedded Systems Engineer | ALTEN, Tangier Apr 2025 - Ongoing

- Developing and validating embedded software for automotive control units using C/C++ and MATLAB/Simulink. - Collaborating with cross-functional teams to ensure ISO 26262 functional safety compliance.

- Tools: C/C++, CANoe, AUTOSAR, Jira, Git, Linux.

Co-Founder, Mobile App Developer | GryLab, Tangier Apr 2025 - Ongoing

- Co-founded a tech start-up specializing in high-performance, single function mobile apps with minimalist design and optimization for efficiency.

- Tools: Flutter, React Native, Python, AWS, Git, GitHub, Android Studio.

Embedded Systems Engineer | APTIV, Tangier Apr-Jul 2025 (3 months)

- Designed, Implemented and Tested a real-time cable identification system with embedded μ CU, I2C serial communication & GUI interface.

- Tools: Proteus, Python, Ultiboard, C++, Arduino Mega, Integrated Circuits.

Automation Engineer | Tanger MED, Ksar Sghir Sep 2024 (1 month)

- Configured an anti-collision safety system with SICK real-time laser sensors & SIEMENS PLCs for detection & crane speed adjustment.

- Tools: SOPAS ET, Simatic Step 7, MATLAB, Ladder Logic.

Full-Stack Developer | Cloud Marketing Hub, Tangier Aug 2024 (1 month)

- Created a school management app for tracking payments, attendance, configuring accounts, database management.

- Tools: WampServer, MySQL, phpMyAdmin, VS, PHP, HTML, CSS, JS, Bootstrap.
